GAS PRODUCTION INCREASES IN WARSAW

The Warsaw Gasworks attained a remarkable production level in the first quarter of 1949. The Gas Plant produced 9,696,700 cubic meters of gas, 14,030 tons of coke, 1,100 tons of crude tar, and 55,070 kilograms of light oil from gas. The Chemical Plant of the Warsaw Gasworks manufactured 1,388,779 kilograms of tar products, 1,366 kilograms of ammonia products, 9,803 carbolic products, 7,000 kilograms of sublimated naphthalene and others.

In the first quarter 1949, the Department of Gas in Warsaw continued its intensified effort to increase the gas main network. From January to the end of March, 9,477 meters of gas mains were put in use, increasing the total network in the city to 374,112 meters; 2,781 new gas meters were installed in the Warsaw area, increasing the total to 36,641. The number of gas street lights in use as of 1 April was 896.
